## RIOTING SCHOOL CHILDREN.

IT IS said that—apparently as a part of the political campaign now going on in New York City—that mobs of school children are indicating the sort of teaching to which they object by the convincing argument of smashing schoolhouse windows. Which the same is an excellent illustration of the utterly contemptible, namby-pamby, idiotic and silly methods of family discipline which are usual in the present stupid generation of Americans. The young ones are opposed to the "Gary" system of education, a method developed in the exclusively manufacturing city of Gary for fitting the children of workers to be effective workers themselves. The children are part of the time in the schoolrooms and part of the time in the workshops. It is improbable that the rioting children know anything whatever about the Gary system, but have been set to breaking windows by the politicians who want to defeat Mayor Mitchell at the pending election because he runs an honest government, says the San Francisco Chronicle.

It is time that both state and nation made incitement to violence or sabotage of any kind for any purpose a felony and pursued those guilty of it relentlessly. Such policing is ordinarily a matter for state action, but as during war time it gives aid and comfort to the public enemy it is treasonable in its nature and may be dealt with by federal authority. "Free speech" means a good deal less than freedom to preach rioting and destruction or any kind of violence for the accomplishment of any purpose.

## HOW'S THIS, MR. HOOVER?

IF FOOD conservation is to become our watchword, why not save the pine nut crop? Don't laugh. This is written in all earnestness and with proof positive of the merit of the argument. Within the confines of the Toiyabe forest, within Nye county's portion alone, there are literally millions of piñon trees. From the cones of each tree from a quart to a peck of nuts could be harvested. They are possessed of more nutriment and are more pleasing to the palate than the peanut. Pine nut flour is an ingredient in delicious pastries. And, inasmuch as fat is one of the great war needs, let it be stated that more oil and better oil may be extracted from the pine nut than from the peanut or cottonseed. Yet ninety-nine and nine-tenths per cent of the crop is permitted to decay in the cones. The harvest season is about to begin and it should not be left to the Indians alone to gather these nuts, for they only harvest a meager amount, but everyone living in or near the Toiyabe forest should do their part, even as they did in planting potatoes this spring, and harvest thousands of bushels. If you don't like pine nuts, it is because you may not have acquired a taste for them, but when you do it will be a taste that lingers.

## SPEED HIM ON HIS WAY.

ON SUNDAY morning a colored citizen, the first of his race drawn from Nye county, will leave to serve his country. There will be at the depot practically all the colored population of the community to bid him farewell and God-speed. The Bonanza suggests that this ceremony be not performed entirely by his own race. "Dee" is personally a young man of splendid physique, a college graduate. He will serve his flag with all devotion, and he should be recognized for the spirit with which he goes to the front. Let it be remembered that it was a black regiment that really saved the day at San Juan and another that prevented the massacre of a Pennsylvania regiment in the Philippines. Before this war is ended entire divisions of colored soldiers will be fighting in France for our liberties, as we fought for theirs, or did our fathers, in the '60s. So give "Dee" a good send-off.

## VICTORY NOT IN SIGHT.

THE German steam roller is operating steadily and relentlessly on the Italian front. One American transport has been sunk and another steamer badly damaged, while thirty French and British vessels have gone down before the submarines during the past week. The advance on Petrograd is unchecked. America is in the war and men and money are desperately needed to bring victory. Do your part—do your bit—do your best.

## CHECK FOR \$1425 TO PAY FOR WAR AMBULANCE IS SENT TODAY

The following telegram has been received by Mrs. Grigsby from the American Ambulance Field Service: "Congratulations for success of your efforts. Make check payable Paris Ambulance Fund. Each ambulance marked according to wishes of donors, therefore give in full the inscription you wish placed on Tonopah Ambulance."

As previously explained the French government sent out an urgent appeal for fifty more ambulances to be used in transporting the wounded from the base hospitals to the big Paris hospitals, and arranged for shipping space for them.

These chassis were shipped three weeks ago and one was reserved for the Tonopah Ambulance Regiment. Today a check for \$1,425 was sent to the Paris Ambulance Fund for the payment of our ambulance—\$1,025 of that amount will pay for chassis, freight and insurance, \$300 for the body which will be built on in Paris and \$100 for extra parts.

The inscription on our ambulance will be, "A Gift From the People of Tonopah."

## START ON MILL SOON.

Harry Stimler, who arrived yesterday from Camp Stimler, in Cottonwood canyon, states that he will start construction of a mill at his property within the next thirty days. A crew is now engaged in putting in a pipe line. Accompanying Mr. Stimler to Tonopah are Chris Hansen, engineer for the company, and R. Hoffman, representing the Richmond Machinery company of Salt Lake City, which has just completed the installation of two hoisting plants and a compressor.

## BREAKS LEG AGAIN.

William Kelly, Cash Boy miner, broke his leg several months ago. After a stay at the hospital he was discharged as cured and went back to work. Today he is back in the Miners' hospital. Yesterday he fell over some machinery in the bottom of the shaft and broke the same leg again.

## FITZGERALD APPOINTED.

D. J. Fitzgerald has received his appointment from Food Director Hoover to take charge of the food conservation pledge card campaign.

of Tonopah," because it was the people of all classes and colors that made the purchase of the ambulance possible.

The remaining \$400 in the treasury will be used to institute a vigorous campaign for surgical dressings which are so desperately needed "over yonder." A letter from Paris says more surgical dressings were used last month than in the six preceding months together. Let every one that can learn to make these dressings and take large quantities home to turn out in spare minutes. Our own boys will be needing them only too soon.

Morris is the first colored man from Nye county to be drafted into the national army. He is a college graduate, football player and all around athlete. Arrangements are being made by the colored people of Tonopah to give him a rousing farewell, and it is expected and hoped by them that the recruits will not be entirely limited to people of his own color.
